

Agility Corporate is a comprehensive employee benefits solution that integrates and streamlines the entire spectrum of employee benefits on a single technology platform. Designed to cater to businesses of all sizes, **Agility** Corporate focuses on enhancing human capital management strategies, optimising return on investment in human capital, and ultimately improving the bottom line of companies.

By providing a centralised platform, **Agility** Corporate enables employers to effectively manage and administer various employee benefits programmes, leading to a healthier, more loyal, and productive workforce.

One of the key advantages of **Agility** Corporate is its holistic approach to employee benefits management. Rather than dealing with multiple disparate systems and products, employers can consolidate all their benefits offerings, such as health insurance, retirement profiles, wellness programmes, flexible healthcare savings, and more, onto a single platform.

Medical Shortfall Cover

The **Agility** Gap & CoPay offering provides shortfall cover for services rendered in hospital and also features an extensive range of value-added out-patient cover, from emergency room benefits to physio consultations. Available to corporates and individuals across all medical schemes.

Gap Range

The **Agility** Gap Range offers the choice between 200% and 500% cover for in-hospital professional fee shortfalls in addition to the rate covered by the medical scheme.

Combined & Corporate Range

The **Agility** Combined & Corporate product ranges provide integrated Gap & Co-payment benefits. These include full cover for in-hospital professional fee short payments, co-payments related to MRI & CT Scans, as well as procedural admissions to hospital across a range of 200%, 400% & 500% options. In addition, cover for In-Hospital Sub-Limits, Robotic-Assisted Shortfalls and Private Room Upgrades are available on the Combined 400, Combined 500 and Ultra options

Tailored Healthcare Savings

One of the highlights of **Agility's** integrated healthcare solution is the **Agility** Healthcard – an innovative medical savings card.

The **Agility** Healthcard can be used at any medical services provider, including general practitioners, specialists, and pharmacies. Employers and members have full control over monthly allocations to the card.

Underwritten by

Primary Healthcare Insurance

The **Agility** StaffCare Flexicare+ range is a comprehensive primary healthcare insurance product designed to cater to the diverse needs of employees.

With an emphasis on providing affordable healthcare services within a private network, **Agility** StaffCare offers a range of flexible plans that ensure employees receive the necessary medical care without the burden of exorbitant costs.

Group Risk Cover

As a part of **Agility** Life's comprehensive group risk product range, critical illness, and disability insurance offer additional healthcare benefits. These products are seamlessly integrated on the same platform, allowing both the member and the employer to effectively manage and comprehend the complete health benefits at their disposal.

This integration proves particularly valuable in terms of oncology treatment and other critical illnesses, as it enables a holistic approach to healthcare.

Life Cover

Accidental Death Cover

Funeral Cover

Income Disability Cover

Lump-sum Disability Cover

Critical Illness Cover

Retirement Fund Solutions

Agility Retirement Fund Solutions offers tailored life-stage investment portfolios based on varying risk and asset class allocations within an Umbrella Provident Fund or Umbrella Pension Fund. Investors are offered a wide range of well-diversified, globally balanced portfolios while ensuring that your risk profile remains well-managed.

Joint Asset Management with

Employee Wellbeing Programmes

Identify & manage human capital risks

Reduce absenteeism

Enhance productivity

Keep employees healthier for longer

The solution gives your staff access to various services that support their overall wellbeing including health, emotional wellbeing, or financial independence. It also keeps track of each interaction to proactively identify, and respond to, any human capital risk that could negatively affect their performance.
